PROJECT LOCATION

The property is accessed from Calumet Ave. The tenant space is along the north façade (facing the parking lot). The entrance is also along the north façade approximately middle of the building.

PROJECT SUMMARY

The applicant is requesting signage along the north façade of the building. The building is located up to the sidewalk on Calumet Ave with parking on the northside of building. The applicant is utilizing a door sign and small wall sign on the north façade. This building was clearly constructed with one occupant in mind. However, today the building is split in two tenant spaces with a front and rear tenant space.

At the June 09, 2015, BZA Meeting a sign variance was granted to permit the current sign on the east façade. At that time there was a sign along the north façade that has since been removed and would not be permitted today under current code.

Today, the applicant (Maximum) wishes to install a 283.14-in. long x 30-in. tall x 7-in. deep for a total of 59-sf deep over the Big City Cheesesteaks tenant space on the north facade.

CODE

WALL SIGN TABLE 26-6.701.B SIGN TYPES
SPECIFIC STANDARDS

The applicant is permitted a wall sign (one already exists) up to 1.5-sf per lineal ft. Also, the sign is permitted 100% width of the façade but not further.

Tenant facade = 77-ft length

Max Area of Wall Sign = 115.5-sf

In addition, according to 26.6.701 B.5.i.:

“Signs not owned by or leased to the operator of a business on a site are prohibited.” The applicant is requesting a wall sign over a business facade he does not lease.

Clearance	min 7 ft

VARIANCE STANDARDS

The variance process is established to provide relief to a property owner when, due to unique circumstances, compliance with the zoning code imposes a hardship or practical difficulty on a property owner. The BZA is under no obligation to grant a variance. It is the petitioner's responsibility to prove a hardship or practical difficulty. The BZA should ask the petition to address the criteria listed below.

Sec. 26-6.804.I of the Munster Zoning Code states that the basis for a variance is as follows:

g. General Standards.

A Variance may be granted only if the Decision-Making Authority has made the following determinations for such Variance:

- i. the practical difficulties or unnecessary hardships that would be incurred by strict application of the Use or Development standard, as applicable, are unique and not shared by all properties in the vicinity and are not self-imposed;
- ii. such Variance is the minimum Variance that will relieve such practical difficulties or unnecessary hardships, as applicable;
- iii. such Variance is in the spirit of the general purposes and intent of this Article as stated in Division 1; and
- iv. such Variance is so designed as to provide reasonable consideration to, among other things, the character of the neighborhood, District, or Civic Zone, the conservation of property values in the vicinity, and the guidance of Development in accordance with the Comprehensive Plan.

h. Specific to Development standards Variances:

A Variance from Development Standards may be approved or approved with conditions only if:

- i. it will not be injurious to the public health, safety, morals, and general welfare of the community;
- ii. the use and value of the area Adjacent to the property included in the Variance will not be affected in a substantially adverse manner; and
- iii. the strict application of the Development standards will result in practical difficulties in the use of the property.

The applicant has addressed these criteria in the attached application.

STAFF RECOMMENDATION

With the removal of existing wall sign on the north faced the dimensions of the proposed wall sign is compliant, however the placement is not compliant with code. Staff has concerns regarding placing a wall sign over another's tenant space.

MOTION

The Board of Zoning Appeals may wish to consider the following motion:

Motion to conditionally approve request for a wall sign on the north side with the condition the sign may only be placed over the tenant space and no further.

DEVELOPMENTAL VARIANCE CONDITIONS OF APPROVAL

The Munster Board of Zoning Appeals is authorized to hear petitions for developmental standards variances and to approve or deny. The Board of Zoning Appeals may also impose reasonable conditions and restrictions. Indiana Code 36-7-4-918.5 lists the legal criteria for a developmental standards variance:

- 1. The approval will not be injurious to the public health, safety, morals, and general welfare of the community. Explain why this statement is true in this case:

Sign is installed as it was previously installed on the North side of building.
It will not have any scope of sight.

- 2. The use and value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner. Explain why this statement is true in this case:

No

- 3. The strict application of the terms of the zoning ordinance will result in practical difficulties in the use of the property. Explain why this statement is true in this case:

It will not occupy any traffic right of way
