

To: President and Members of Town Council
From: Staff of Public Works
Meeting: October 21, 2024
Re: Fountain Winter Removal, Routine Maintenance, Storage & Installation for 2024/25

Background:

The Town has utilized Aquatic Control since 2000 for fountain maintenance and consolidated its Lake/Pond/Ditch maintenance and its fountain maintenance contracts under the same vendor, Aquatic Control since March 2018. The renewal for the Fountain Winter Maintenance contract is due and includes the following 20 Lake/Pond locations (per attached “Basins and Fountains” map):

RESIDENTIAL SUBDIVISIONS

West Lakes Subdivision	7 fountains
White Oak Estates Subdivision	7 fountains
White Oak Woods	1 fountain
<u>Community Estates</u>	<u>2 fountains</u>
Total	17 fountains = \$7,368

PARKS

Centennial Park (Maynard Lake)	3 fountains = \$2,118
--------------------------------	-----------------------

Methodology:

The Fountain Maintenance contract covers 20 fountains listed above providing 2024/25 winter removal & storage, with routine fountain maintenance (not including light bulb replacement or additional a-la-carte repairs) and re-installation in the spring 2025. There are 2 quotations; one for the Parks Department (3 fountains) @ \$2,118 and the other for the Public Works Department (17 fountains) @ \$7,368.

Recommendation:

The Town Council to approve two attached Aquatic Control proposals dated 9/6/2024 for 2024 fountain winter removal, maintenance, and storage and 2025 Spring installation in the amounts of \$2,118 for Quotation #400645 and in the amount of \$7,368 for Quotation #400639.
