RE: All leachate cell riser per panel replacement project per panel (1 Pump Only).

Field Proposal #25-1054 Rev-1

HD Mechanical Inc. is pleased to submit its Not to Exceed proposal to supply labor, supervision for the above-mentioned project.

Our scope of work includes the following items:

1. **HD/Austgen** proposes to LOTO all associated equipment with operations prior to start of work with scope to include the following.
 - **Provide and install New EPG cell riser control panel.**
 - **Panel controls 1 pumps, and 1 level transducers each.**
 - **Provide labor and equipment to install all conduit & wiring for all replacement.**
 - **Hook up all necessary existing wiring from cell risers to control panels.**
 - **Wire & land safety circuit from lift stations that shut down cell risers in high level state at the actual lift station's locations.**
2. Supply (2) electricians to complete all electrical work at panels and make operational.
3. Any material or labor that is needed in addition to what has been budgeted, will be completed on T&M basis. REF#MM250220-1
4. We have based proposal on 8-hour days shifts during normal working hours for 3 men & operator each day. (Premium-time & holidays excluded)

The following items are not included:

- Sales or use taxes, permits or fees.
- NDT Testing, sump evacuation or equipment for leachate transfer.
- Vac Truck, Civil or Insulation work is by others.

Our Lump Sum Proposal for Cell Riser Replacement Control Panel Work is \$36,628.48 (Thirty-six thousand six hundred and twenty-eight dollars and forty-eight cents). This price is per panel.

Thank you for the opportunity to submit our proposal and look forward to serving you better.

Respectfully,
HD MECHANICAL, INC.

Erik Hansen
